

Five intensive workshops in entrepreneurship will provide essential knowledge for creating and operating your own arts enterprise. Learn how to develop your creative business in the studio arts, graphic and digital design, animation, film, music, performance, audio technology, theater, dance, creative writing, communication, and other creative endeavors. Offered over five consecutive Thursday evenings, the workshops will inform you about understanding your market; selling locally, nationally, and online; how to prepare a guiding plan; and the role of finance in your business.

Presenters include experts in strategic planning, taxation and legal requirements, finance and insurance, trademark and copyright law, social and environmental impact, and e-commerce and marketing. The final session will feature a panel of artistic entrepreneurs who earn a living from their creative enterprises. Space is limited to 30 registrants. Discounts are available for Buffalo State students and alumni. This professional development program is offered as a package of five sessions. Sessions are not available individually.

Certificates

A Certificate of Completion will be awarded for successful completion of all workshops.
