

# Funded Research Opportunities for Entrepreneurs engaged in Research and Innovation – September 23<sup>rd</sup> Intro to the SBIR & STTR Programs

Through the SBIR/STTR program eleven US Federal agencies including Department of Defense, National Institutes of Health, National Science Foundation and Department of Energy provide grants & contracts to small businesses to conduct innovative R&D with strong commercialization potential. Western New York companies have received over \$23 million in SBIR and STTR program funds over the last three years.

**Buffalo State Small Business Development Center and University at Buffalo will be conducting a 3-hour workshop on the SBIR and STTR programs.**

**Topics will include:**

- SBIR/STTR Program Overview
- Elements of a Winning Proposal
- Business/University Collaboration Opportunities
  - Proposal Reviewer's Perspective
- Assistance to help you write a proposal

**Presenter:**

Jack McGowan, *Insyte Consulting*  
Martin Casstevens, *University at Buffalo*
