Lafayette International High School Entrepreneurship Workshop

LAFAYETTE INTERNATIONAL COMMUNITY HIGH SCHOOL OF BUFFALO

On November 27th, Dr. Susan McCartney and Olivia Harbol presented to Lafayette International High School senior students in their entrepreneurship class. The class was divided into four groups to develop their own ideas for a pet store. The students were able to differentiate themselves from the competition by making unique features for their store. Some students offered to have exotic animals to adopt, while another group stated that they would be the most loving to the animals.
