## My Brother's Keeper Entrepreneurship Day

On August 13th, 2019, the SBDC partnered with My Brother's Keeper for Entrepreneurship Day. Dr. Susan McCartney and our student intern, Olivia Harbol, led sixty high school students on learning about what it takes to be an entrepreneur. The participants rotated through five stations, consisting of the creative process, business planning, and designing clothing. This was just the beginning for these young entrepreneurs, and we cannot wait to see what they accomplish!
